## SUMMARY OF CHANGES

The following have been added by full text:

ADDITIONAL QUESTIONS & ANSWERS**Questions****Solicitation No: W81XWH-10-R-0033****13 September 2010**

**Reference: Amendment 0001, Questions and Answers,**

**Question 1** – In the answers to questions in Amendment 1 the Government indicated that they anticipate awarding one general task order for each contract year to cover all non-research program related tasks. Would the Government please clarify how our cost estimate should identify the costs for these tasks? Should the costs be provided as a separate element of the pricing, or should they be “rolled-up” into the cost estimate(s) for each of the programs?

**Answer:** The contractor can propose their own pricing structure, as long as an explanation of the pricing proposal is provided.

**Reference: Volume 2- Business, Section 2 (page 50)**

The RFP requires “The offeror shall provide complete pricing for each CLIN in the schedule. All estimates should be based on the estimates provided in Attachment A (Annual Pre-Application and Full Application Estimates). The offeror shall also provide a cost estimate detailing each research program, per year, per CLIN.”

**Question 2** – The Volume 2 proposal instructions state “All estimates should be based on estimates provided in Attachment A”. After review of the PWS we believe that not all requirements (i.e. 3.2 (Scientific and Administrative Support to CDMRP Leadership Staff and IPTs), 3.3 (Scientific and Administrative Support to Specialized IPTs), and 3.4 (OPTION: CDMRP Publicity Support)) are associated with the estimates provided in Attachment A. Is it the Government's intent that we estimate costs associated with the entire PWS (including 3.2, 3.3 and 3.4) or only those PWS requirements associated with the estimates provided in Attachment A?

**Answer:** Although tasks 3.2, 3.3, and 3.4 of the PWS are not directly related to Attachment A, these tasks are still associated with specific research programs; therefore, you will need to include all program-specific costs in each of these task order estimates. The estimates provided in Attachment A describe the volume of proposals anticipated for each research program that you will be supporting.

**Question 3** – The Volume 2 proposal instructions indicate that we should provide an estimate “...per year, per CLIN”. The SF1449 shows the contract line items as the contract years. Please clarify if CLIN and Year are the same or something different?

**Answer:** Per year and per CLIN are the same. The CLINS for the base year are for two years; Option years are one year each. The instructions state that the offeror shall provide a cost estimate detailing each research program, per year, per CLIN. You are required to roll all of the cost estimates of each research program into the CLINS of the SF 1449.

**Question 4** – PWS 3.4 is entitled “OPTION: CDMRP Publicity Support” however we did not see an Option CLIN listed in the SF1449. Does the Government intend for us to provide a cost estimate for this option with our proposal? If so, please clarify if the cost estimate for the option should be separated out or provide guidance on what program(s) / contract year(s) the costs should be included.

**Answer:** CLIN 0003, and its option CLINs, have been added for Publicity Support.
